

## Finger Lakes Regional Airport Safety Seminar

**This FAA Safety Event will have 2 presentations:**

**David St. George's presentation** will be two-fold and largely interactive discussing the importance of dressing for survival and carrying a survival kit while flying in the Finger Lakes (no flip-flops and shorts please) and also the approved and recommended ways to enter and operate safely in a non-towered airport environment. (see attachment below). **Also, David is Requesting that local pilots to bring and display their personal survival kits!!**

**Gene Benson's presentation** is titled "**Just This Once**"

Our humanness often pushes us to engage in "*just this once*" activities and then reinforces successful outcomes with an increased willingness to repeat the practice.
