

## Full Control Flying Is an Antidote to Loss of Control

**CFR 121.423** requires “**Extended Envelope Training**” for all airline flight crews to combat **Loss of Control-Inflight** (#1 cause of fatal accidents). This training is an excellent idea for GA pilots as well. This program reviews some basic **aerodynamic principles** critical for flight safety and **suggests some maneuvers** to extend the GA pilots's personal maneuvering envelope.

Sunday, September 22nd @ 8 pm EDT
