

Owner Operator Maintenance - Introduction to Aircraft Fabric

This course provides aircraft owners and operators with a foundational understanding of aircraft fabric covering systems. Participants will learn about the materials, tools, and techniques used in fabric application, inspection, maintenance, and repair. The class covers fabric types, certification standards, surface preparation, and common inspection findings. Emphasis is placed on proper care and maintenance to ensure safety, airworthiness, and longevity of fabric-covered aircraft components. Ideal for owners, restorers, and enthusiasts seeking to enhance their technical knowledge and confidence in managing fabric-covered aircraft.

Buffalo Lancaster Airport 4343 Walden Ave. (Big Hangar)
