

## Owner Operator Maintenance Aircraft Course

This course provides pilots and maintenance personnel with a practical overview of basic aircraft sheet metal repairs including rivet selection and identification. The course also addresses safety considerations, environmental compliance, and regulatory requirements associated with aircraft sheet metal repairs. Emphasis is placed on industry best practices to ensure quality workmanship, durability, and continued airworthiness.

This is a closed seminar and is limited to Ron Ciura's Tuesday night class only. For additional information contact Ron Ciuria at: [magman366@gmail.com](mailto:magman366@gmail.com)

Buffalo Lancaster Airport  
4343 Walden Ave. (Big Hangar)  
Lancaster, NY 14086
