

HAI presents:

**Advanced Vertical Reference Long-Line Applications Course at
HELI-EXPO 2013**

This ground school will build on the operational concepts presented in the Introduction to Vertical Reference Long-Line course. The advanced course will venture further into Part 133 operation applications, definitions, and regulations. Also addressed are advanced vertical reference long-line methods and industry utilization for a variety of external-cargo missions.

This course will address topics that include — Safety challenges for long-line operations and ground crews External cargo accident scenarios and accident reports Emergency response planning Congested area planning Remote operations Emergencies and rigging failures Aircraft performance Class D (human cargo) and class B (human cargo) Short-haul human external cargo and helicopter external transport system Rescue hoisting operations Procedures for long-line water bucketing General cargo delivery and cargo rigging

Registration is available at <http://www.rotor.com/Events/HELIXPO2013.aspx>. Seats are limited. On-site registration is based on availability.
