

Avoiding Deviations in NY/NJ Airspace- Ruudy4 or Teterboro 8....why the selection is critical!

Each day many safe operations occur at the five airports in the NY/NJ area. Lately many more navigation errors, including altitude excursions, have caused concern. FAASTeam and Air Traffic are collaborating to produce this seminar on how to operate safely and efficiently around our airspace whether you are a weekend VFR flyer or a professional aviator on an Instrument Flight Plan

Directions: Inside Port Authority make the first left, turn right for conference room

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
