

The FAA Safety Team presents:

New York Airspace Review

New York airspace, communication requirements, navigation and VFR chart skills will be reviewed. The correlation between VFR charts, IFR charts and the A/FD will be explored. Preflight tasks designed to mitigate airspace deviations will be discussed as well things to consider when using GPS as a primary navigation tool. Both ground and airborne deviations will be discussed. Please click on the link below to see more information and to register on-line for this important event as seating is limited!

Directions: Please see map link for directions, seminar will be held in the Manager's Conference Room.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants.
