

The FAA Safety Team presents:

Accident Causation and Prevention Session at HAI HELI-EXPO 2015

The expectation for this course is for the attendees to become familiar with Accident Causation. To design, develop, and implement an effective accident prevention program, an organization must first understand what causes accidents. This session describes a model for accident causation that addresses organizational features and conditions that may cause an accident.

This course is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2015. These sessions are FREE to all HELI-EXPO 2015 registered attendees and exhibitors.

Take the Rotor Safety Challenge in three simple steps:

1. Select safety sessions to attend from the HAI Rotor Safety Challenge Schedule - <http://www.rotor.com/takethechallenge>.
2. At the conclusion of each session, collect a token from the room monitor or presenter.
3. Once you have earned at least six tokens, take them to the HAI Safety Committee booth (#1115) to receive a certificate of recognition.

Event Details

Wed, Mar 4, 2015 - 16:00 EDT
Orange County Convention Center

9990 International Drive
Level III South
Orlando, FL 32819
