

The FAA Safety Team presents:

Anthropometric Flight Safety Session at HAI HELI-EXPO 2015

Anthropometry, the study of human body measurements and proportions, is an important tool used in industrial design to optimize products. This session will explore the regulatory anthropometric requirements for helicopter design, valid anthropometric databases, and case studies involving anthropometric flight safety. This course is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2015. Rotor Safety Challenge course are FREE to all HELI-EXPO 2015 attendees and exhibitors.

Attend at least six Rotor Safety Challenge sessions and receive a certificate of recognition.

Take the Safety Challenge in three simple steps:

1. Select safety sessions to attend from the HAI Rotor Safety Challenge Schedule - <http://www.rotor.com/takethechallenge>.
2. At the conclusion of each session, receive a token from the room monitor or presenter.
3. Once you have earned at least six chips, take them to the HAI Safety Committee Booth (#1115) to receive a certificate of recognition.
