

The FAA Safety Team presents:

Limited Power and Confined Areas Session at HAI HELI-EXPO 2015

Get the most out of your helicopter and understand how to manage its power and limitations during flight into and out of confined areas. We will cover how to develop a system for measuring available power and what the helicopter and the pilot can do with that power. Assessing unprepared confined areas and making subsequent approaches and departures will also be discussed. Learn how to make good piloting decisions for flights in these conditions, based on the information available at the time. This session is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2015. Rotor Safety Challenge course are FREE to all HELI-EXPO 2015 attendees and exhibitors. Attend at least six Rotor Safety Challenge sessions and receive a certificate of recognition. Take the Safety Challenge in three simple steps: 1. Select safety sessions to attend from the HAI Rotor Safety Challenge Schedule - <http://www.rotor.org/takethechallenge>. 2. At the conclusion of each session, receive a token from the room monitor or presenter. 3. Once you have earned at least six chips, take them to the HAI Safety Committee Booth (#1115) to receive a certificate of recognition. Note: You must present your HELI-EXPO attendee badge to attend any Rotor Safety Challenge sessions. For more
