

The FAA Safety Team presents:

SMS and Technology: Do They Fit Together? at HAI HELI-EXPO 2015

When we consider applying technology to aircraft operations, we must look at all aspects of the business process. This most certainly includes safety and, specifically, safety management systems (SMS). If utilized correctly, technology can significantly help with the SMS process. The goal should be to enable efficiencies that not only provide an uncomplicated user experience, but ultimately enhance the operator's safety performance. This session is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2015. Rotor Safety Challenge sessions are FREE to all HELI-EXPO 2015 attendees and exhibitors. Attend at least six Rotor Safety Challenge sessions and receive a certificate of recognition. Take the Safety Challenge in three simple steps: 1. Select safety sessions to attend from the HAI Rotor Safety Challenge Schedule - <http://www.rotor.com/takethechallenge>. 2. At the conclusion of each session, receive a token from the room monitor or presenter. 3. Once you have earned at least six chips, take them to the HAI Safety Committee Booth (#1115) to receive a certificate of recognition. Note: You must present your HELI-EXPO attendee badge to attend any Rotor Safety Challenge sessions. For more information contact HAI at 703-683-4646, or <mailto:education@rotor.com>.
