

The FAA Safety Team presents:

Limited Power and Confined Areas at HAI HELI-EXPO 2016

Get the most out of your helicopter and understand how to manage its power and limitations during flight into and out of confined areas. We will cover how to develop a system for measuring available power and what the helicopter and the pilot can do with that power. Assessing unprepared confined areas and making subsequent approaches and departures will also be discussed. Learn how to make good piloting decisions for flights in these conditions, based on the information available at the time. This course is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2016. These sessions are FREE to all HELI-EXPO 2016 registered attendees and exhibitors.

Attend at least six Rotor Safety Challenge sessions at HELI-EXPO 2016 and receive a certificate of recognition for completing the 2016 HAI Rotor Safety Challenge.

Take the Safety Challenge in three simple steps:

1. Select safety sessions to attend from the HAI Rotor Safety Challenge Schedule. To see the full Safety Challenge schedule, visit <http://www.rotor.com/takethechallenge>.
2. At the conclusion of each session, receive an official token from the room monitor or presenter.
3. Once you have earned at least six tokens, drop by the HAI Safety Committee Booth on the show
