

## Airworthiness for Student Pilots

This seminar is an introduction to airworthiness designed for student pilots. The specific elements of inspections and safety of flight will be discussed. Sample aircraft log documents will be reviewed and specific examples of pre-flight issues will be presented. Most importantly, we will combine the various regulations and pre-flight actions related to airworthiness to illustrate how the CFRs work and how to use that information to manage risk. Click the link below and register TODAY.

**Directions:** Please park in the adjacent parking lot. The seminar will be held in the flight school conference room.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
