

FAA Safety Team presents:

CFI Open Forum

The Flight Review is a golden opportunity for every Flight Instructor. Virtually every pilot will need a Flight Review once every 24 calendar months. It is also an opportunity to help mold safer pilots. As you know, safer pilots will help improve the accident rate (and in particular, if properly conducted may reduce the amount of LOC-I accidents). Perhaps the most important point is that this might be the only chance that CFIs can interact with those pilots that are averse to recurrent training. Please come and join in the discussion of performing a thorough Flight Review..

Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

Directions: Manager's Conference room. Turn left at the first corridor, room is on the right.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
