

Bust the Rust - Not the TFR (Changed for Weather)

NOTAMs are one of the least understood sources of information published by the FAA. You will learn where to find NOTAMS, how to decipher them, and how to use them. We'll introduce you to LTAs (Letters to Airmen), SUA (Special Use Airspace) NOTAMs, and Presidential TFRs. In addition to a review of Part 91 and AIM recommendations, we will also present an in-depth discussion of the Bedminster TFR, operational best practices, and flight planning considerations.

Directions: Aero Safety Training is located at the northeast corner of Lincoln Park Airport, on the corner of Jacksonville Road and Beaverbrook Road. Parking is available in the adjacent lot.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
