

FAASTeam Flight Instructor Open Forum #3

Some of the deadliest accidents involving airplanes have occurred not in the air, but on the runway! This problem, though simple on the surface, requires all parties involved in airport operations to work together to create a safer, more vigilant environment. So, how do you teach airport surface safety? Are you using the best practices recommended by the FAA and industry experts? Do you demonstrate the common errors? Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training!

Directions: Forum will be held at H J Aviation, in the large hangar upstairs on far side of runway.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
