

The FAA Safety Team presents:

**A Healthy Airplane is a Happy Airplane!**

Do you know the difference in maintenance rules between an E-LSA, S-LSA, experimental amateur-built and sport pilot eligible aircraft? Do you know what maintenance an owner is authorized to accomplish? There is still a lot of confusion with respect to maintenance and inspection rules, requirements and ratings. Featured speaker Richard Koehler, an A&P/IA and EAA workshop instructor for LSA Repairmen will help to clarify light sport and experimental aircraft maintenance and certification requirements. Also, featured speaker Ric Peri, an A&P with over 30 years experience, will discuss aircraft ownership and maintenance from the pilot/owner perspective. Whether you built it yourself or own a "store bought" certificated aircraft, this seminar is a must for every owner/operator of an aircraft! Register TODAY!

**Directions:** From Manassas: Take VA 28-S. Turn left onto VA 649/Germantown Road. Follow VA 649 to Airport Road and turn right into Airport. From Warrenton: Take VA 15S. Turn left onto VA 17S/Marsh Road. Turn left onto VA28/Catlett Road. Turn right onto VA 649/Germantown Road. Follow VA 649 to Airport Road and turn right into airport.

Meeting will be held in the hangar next to the FBO.
