

Lessons Learned from Experimental Amateur-built Aircraft Accidents

The National Transportation Safety Board is presenting a seminar highlighting the lessons that have been learned from investigations of accidents involving experimental amateur-built aircraft (E-AB). This seminar will provide attendees a unique opportunity to hear about some of the E-AB accidents that the NTSB has investigated, as well as the recommended safety efforts to reduce the E-AB accident rate. NTSB Board Member Earl Weener will be a featured presenter, and attendees will have the opportunity to meet and ask questions of Member Weener and NTSB staff. Please click on the link below to view important registration details. We'll see you there!

Directions: Please see the "Additional Seminar Information" for driving directions to the NTSB Training Center.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
