

The FAA Safety Team presents:

# Chesapeake Sport Pilot Open House

Flight Instructor (CFI) Michael Bangert will discuss the effects of aging on the learning process and how it can affect pilots. This briefing is intended for pilots of all ages and certificate levels; whether you're a new student just beginning to fly, or an experienced pilot considering a change in the type of flying you do. Learn techniques and best practices for mitigating the effects of aging on the learning process. CFI Christopher Criswell will discuss the history and safety record of gyroplanes, and today's modern gyroplane industry. If you've ever wondered how these aircraft work, or what it would be like to transition into flying one, you won't want to miss this discussion. Seminars begin at 1 PM. Click on the link below to see the complete schedule and register TODAY!

**Directions:** Take US 50 to Stevensville, MD, Exit 37. Take Romancoke Road (MD 8) South and make a right at the airport. The event will be held at Chesapeake Sport Pilot.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
