

Spatial Disorientation

Spatial disorientation for aviators, including the physiological aspects, human factors, as well as several accident case studies will be discussed. The presenter, Allison Diaz, is an aviation accident analyst with the National Transportation Safety Board, Office of Aviation Safety. Prior to her current position, she was an air safety investigator in the NTSB's Eastern and Western Pacific regional offices, serving as investigator-in-charge of general aviation accident investigations. Allison is a certificated flight instructor and holds a master of aeronautical science degree with a concentration in human factors.

Directions: The seminar will be at the Winchester Regional Airport, Main Terminal which is easily accessed via Route 7, Route 50 or Interstate 81.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
