# HEC Hoist Congested Area Planning and Utility Rigging

Jeff Yarnold of Boost systems ; Jeff Gordon, Southern California Edison; Michael J. Gelskey, Sr., Lift-It; Robert Libby, Advanced Helicopter Training

This course takes attendees into the working world of external cargo and provides valuable guidance and insights into short-haul Class D human external cargo (HEC), hoisting, congested area planning (CAP), and best rigging practices. You will get the answers you are looking for from experts in their respective fields: Bob Cockell of Air Rescue Systems, a hoisting and short-haul trainer; Jeff Gordon of Southern California Edison, an expert at congested area planning with 1500+ CAP plans under his belt; Michael J. Gelskey, Sr., of Lift-It, a seasoned industrial rigging instructor who understands the demands of the helicopter lifting sector.

At the conclusion of the course, attendees will be familiar with: Hoisting and short-haul equipment, mission execution, and team matrices; The CAP document process and FAA and local government concerns and involvement; Utility cargo rigging, rigging configurations, tools for the job, load angle calculations, equipment selection, and management of the hazardous work environment.
