

FAASTeam presents:

# Special Instrument Procedures and Increased Risk Management

Safety management systems (SMS) are shaping how operators manage their risk. In bad weather, having a network of instrument procedures to private facilities or other locations can increase safety as well as the completion factor for a helicopter air ambulance or other operator. This session will feature an entire panel of “specialists” who will provide an overview of special instrument procedures, from request to operations.

This course is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2019. These sessions are FREE to all HELI-EXPO 2019 registered attendees and exhibitors.

Attend at least six Rotor Safety Challenge sessions at HELI-EXPO 2019 and receive a certificate of recognition for completing the 2019 HAI Rotor Safety Challenge.

Take the Safety Challenge in three simple steps:

1. Select safety sessions to attend from the HAI Rotor Safety Challenge Schedule. To see the full Safety Challenge schedule, visit <http://www.rotor.com/takethechallenge>.
2. At the conclusion of each session, receive an official token from the room monitor or presenter.
3. Once you have earned at least six tokens, drop by the HAI Safety Committee Booth on the show

## Event Details

**Wed, Mar 6, 2019 - 09:15 EST**

**Georgia World Congress Center**
