

## Compliance? Big Deal!

In dealing with violations of codes of conduct, the usual response is to find fault and then reprimand. The termination of an employee may appear to address the issue. This session asks challenging questions that may provoke us into thinking differently by considering uncommon but proven and relevant solutions to noncompliance. We will look at how to design training syllabi and operational regulations to encourage willful employee conformance with regulations rather than the costly process of universal enforced compliance.

**Directions:** Room 206AB
