FAA Runway Safety Workshop – WINGS Credit – May 19

FAA Will Host 2nd Annual GA Runway Safety Workshop on May 19th

As the weather starts to turn from cold gray skies to sunny cloudless blue ones, more pilots will want to take their planes to the runways and the skies. The FAA invites general aviation pilots to join in a free “spring training” session so that everyone feels refreshed and prepared to take to the air after taking time away from the cockpit. Workshop panels will focus pilots on runway procedures and work to preempt any airfield errors.

The *From the Flight Deck LIVE* event aims to help pilots reduce the risk of airfield errors and lower the potential for accidents. Discussion topics by pilots and air traffic experts will include knowledge of runway geometry and signage, Hot Spot standardization, arrival alert notices, Digital Co-Pilot, automated construction notices, hold short issues and more.

WHEN: Thursday, May 19, 2022, 1:30 p.m. to 4:30 p.m. Eastern Time, (12:30 pm Central, 11:30 am Mountain, 10:30 am Pacific)

WHO: FAA Acting Administrator Billy Nolen, FAA Acting Chief Operating Officer Tim Arel, Safety and training experts include Meg Godlewski, Karl Grundmann, Jason Miller, Michael Wildes.

FAA and industry experts will participate in four safety panel discussions:

- Surface Safety at Airports
- New Runway Safety Tools
- The Danger of Rust and Inattention
- From the Flight Deck and From the Tower

WINGS Credit: This webinar will be held via Zoom and offer WINGS credits. At the time of the event, pilots should sign in to the webinar using this link: <https://faavideo.zoomgov.com/j/1613530971>

The Password is **484283**, which is required to login to the webinar.

From the Flight Deck LIVE also will be livestreamed via [YouTube](#), but WINGS credit can only be obtained via Zoom.
