On October 11, 2021, a home security camera in Santee, California, captures an airplane rapidly emerging from the bottom of a cloud base. Split seconds later, the airplane spirals into a residential neighborhood, killing the pilot and one person on the ground. Don't miss this engaging, interactive discussion with AOPA Air Safety Institute Senior Vice President, Mike Ginter, as he examines the circumstances that led to the flight's tragic outcome.

Using GPS, enter the airport address (3900 Don Emerson Dr, Lakeland, FL 33811). The AOPA Sun 'n Fun tent will be located on Laird Blvd. The AOPA program pavilion is in the rear of the AOPA tent. Signs will be posted to guide you. Please plan to arrive early to allow for parking and walking to the AOPA program pavilion.
