

AOPA Air Safety Institute Safety Seminar - Trapped in the Hills - Deadly Complacency

Event Details

In this harrowing real pilot story, a routine flight turns fatal as a father and son rely on their familiarity with the region's terrain, despite the intense mountain turbulence and sinking ceiling on one chilly November day following a weekend adventure.

ASI's Real Pilot Stories allow pilots to share their encounters with dilemmas so others can benefit—while comfortably on the ground—from lessons learned the hard way in flight.

This seminar will be held from 4:00 p.m. until 5:00 p.m.

No emails to be sent. This announcement is for WINGS credit only.

The seminar will be held in Main Conference rooms A and B. Attendees will already be in the building and will be directed to the conference rooms.
