

Safety During Helicopter Hot Turns

Certain helicopter operations benefit from “hot turns”—performing fueling or other operations while the engine and rotors are turning. This high-risk work can be performed safely with proper procedures and training. In this session, we’ll discuss appropriate safety procedures and how to approach the training of ground crews that may be unfamiliar with aviation.

Room B401 of the Georgia World Congress Center in Atlanta, GA

VERTICON 2026 Foundation Industry Presentations

There is a cost for this event. Attendees must register and pay for VERTICON attendance by visiting the VAI link below:
