

Aviation Human Factors- Understanding Bias

This session will explore how our brains analyze and make decisions is crucial to identifying where things might go wrong. Through captivating case studies of past accidents and incidents, we'll uncover how biases influence critical decisions for pilots, maintenance technicians, and other aviation professionals, especially in high-pressure, fast-paced environments both in the air and on the ground. We'll also explore how biases can hinder accident investigations, root-cause analyses, and just culture, shedding light on their far-reaching impact.

Room B404 of the Georgia World Congress Center in Atlanta, GA
