

Caution Helicopter Wake Turbulence

"Caution! Helicopter wake turbulence!" No doubt that's a warning you've heard never or, at most, very seldom. But several accidents have occurred as a result of helicopter wake turbulence to fixed-wing aircraft. This session will examine the impact of helicopter wake turbulence on fixed-wing aircraft. Attendees will receive a copy of the training material so they can do this presentation at their home airports.

Room B401 of the Georgia World Congress Center in Atlanta, GA

VERTICON 2026 Foundation Industry Presentations

There is a cost for this event. Attendees must register and pay for VERTICON attendance by visiting the VAI link below:
