

From Concept to Certification Instrument Flight Procedures for Heliports and Vertiports

Event Details

Topics will include COPTER IFR procedures for heliports and vertiports; steps for creating instrument flight procedures; commissioning instrument flight procedures; the certification process; regulatory requirements and compliance; the certification and maintenance of heliports/vertiports; and much more. The presentation will also cover the types of COPTER approaches and the benefits of each type, including COPTER LPV, LP, and LNAV, as well as advanced navigation concepts, including an introduction to A-RNP and RF flight segments. We'll also review heliport surveys and flight inspection activities, the use of weather cameras, enhancing situational awareness, and more.
