

The FAA Safety Team presents:

Are You Ready to Fly?

Did you know that maintenance-related problems are one of the most deadly causes of accidents in general aviation? Contributing to this is a pilot's failure to identify maintenance discrepancies because of a lack of knowledge and improper techniques used during the preflight of the aircraft. How thorough is your preflight? Attend this informative briefing sponsored by the Rochester Air Center and learn what you can do to ensure your "Ready to Fly"! Light Dinner and Refreshments at 6PM courtesy of the Rochester Air Center.

Directions: Please see map link for driving directions.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
