

The FAA Safety Team presents:

The NEW Pilot's Bill Of Rights

Congress recently passed the "Pilot's Bill of Rights". Under the Pilot's Bill of Rights (PBR), Public Law 112-153, an individual who is the subject of an investigation relating to the approval, denial, suspension, modification or revocation of an airman certificate under chapter 447, of title 49, of the United States Code is entitled to obtain government contractor air traffic data that would facilitate that individual's ability to productively participate in a proceeding relating to that investigation. Learn how this new bill entitles you to certain information whenever you are issued a new pilot certificate or become the subject of an FAA Enforcement Action or Investigation.

Directions: Take Route #1 to exit 76. Turn East onto Farrell St. Proceed ½ mile and turn left onto Rod Sullivan Rd. When you go over the bridge over the RR tracks make an immediate right and follow signs to the Wings of Carolina Flying Club.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
