

Don't Be Surprised; Be Prepared!

Aircraft systems knowledge is the best way to prepare for those unexpected and troubling in flight problems we hope will never happen to us. This seminar will review some aircraft systems and how to handle system failures and abnormal circumstances that make us reach for the emergency checklist. Plus, you will learn how to identify what went wrong and possible in flight remedies. This event is open only to members of the WINGS of Carolina Flying Club. For additional information, please contact Robert Sutherland at (336) 369-3949.

Directions: Wings of Carolina Hangar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
