

The FAA Safety Team presents:

## A Helping Hand For Every VFR Pilot!

Radar services are not just for Instrument Flight Rules (IFR) flight! At this informative briefing we'll discuss Air Traffic Control (ATC) services that are available for pilots operating under Visual Flight Rules (VFR) in Visual Meteorological (VMC) conditions. Learn how communicating with ATC can vastly improve your safety and confidence during that long cross country VFR flight. Don't miss this opportunity to be a safer pilot! Click on the link below to see all of the details and to register TODAY!

**Directions:** From Franklin, take Hwy 28N, left on Airport Rd. to FBO. The seminar will be held in the conference room.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
