

FAASTeam presents:

FAASTeam Open Forum 2nd Quarter FY14

The startle reflex normally triggers within 100 milliseconds of the stimulus, it is pre-emotional and contains physiological and subjective dimensions. In the jungle, this is the fight-or-flight response when encountering something unexpected. A pilot's response to this stimulus can often mean the difference between life and death! So, how do you teach your students to Prepare for the Unexpected? At this FAASTeam Flight Instructor Open Forum we will explore some of the unexpected conditions that can happen during flight and how you can teach your students to be prepared to cope with these situations. Flight Instructors, Ground Instructors, Designated Pilot Examiners, Instructors in training, and all pilots are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

Directions: Enter Campus from Weeksville RoadNorht CampusEntrance on the University Drive. The FAASTeam Forum is in Dixon Patterson Hall, Room 228.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
