

Helicopter Safety Summit

The goal of any safety program is to identify the hazards and manage the risks. Accidents are caused by normal people performing normal tasks that usually deviate from a normal system's environment. At this helicopter safety summit we will identify the hazards of inadequate helicopter maintenance, human factors related to several helicopter accidents, ATC procedures around military operations areas and the upcoming Open Golf tournament at Pinehurst, and how to identify and manage the risks associated with helicopter operations. Seating is limited. Register NOW by clicking on the REGISTER button below.

Directions: From I-40, RDU Exit to Raleigh Durham Airport. Seminar held in the Airport Authority Building, Room 100. Follow signs for Rental Car Return and you will see a sign for the Airport Authority.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
