

NOAA Weather Station Tour

Don't miss this exclusive opportunity to tour the National Oceanic and Atmospheric Administration (NOAA) facility in Raleigh, NC. Meteorologists will walk you through the many weather gathering portals to see how climate conditions are observed, predicted, and disseminated to airmen and the general public. See first hand what's behind weather prediction metrics, storm warnings, icing levels, and radar weather data. Understanding how this information is gathered and processed will enable you to make better decisions regarding the weather. Registration is limited to 25 airmen so register NOW by clicking on the link below!

Directions: Building is located on the NC State Centennial Campus in Research Building 3, Suite 300. Look for the building with all the antennas and radar dishes on the roof.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
