

Piedmont Aero Club Open Meeting

You have often heard others talk about the impromptu FAA Ramp inspection. Hardly routine, there is actually nothing out of the ordinary if you are selected for a "ramp check" when you step out of your airplane. Learn what regulations must be followed and what you are expected to show the inspector. Also find out what documents must be aboard the aircraft besides the registration. Attend this important seminar and tour the exciting and new GTCC Aviation Complex. Seating is limited. Click on the link below and register TODAY.

Directions: NEW GTCC Aviation Building (AV3) located across from Honda Jet. Look for FAA Seminar signs to the building. Seminar to take place on the 2nd floor in room 318/319. Allow time to drive to this new seminar location

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
