

## CFI Forum: Conducting an IPC

Loss of Control in IMC is a leading cause of accidents and too often it is an instrument pilot that falls victim to this conundrum. Proper proficiency training and checking from a knowledgeable CFI is one way to mitigate this causal factor. Learn how best to prepare and conduct this very important and often neglected flight training event. This seminar is so important that it is open to all airmen and is not limited to Certified Flight Instructors. Seating is limited. Click on the link below and Register Today.

**Directions:** Take Route #1 to Exit 76. Turn East onto Farrell St. Proceed ½ mile and turn left onto Rod Sullivan Rd. When you pass over the bridge over the RR tracks turn an immediate right and follow signs to the Wings of Carolina Flying Club.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
