

FAASTeam Fight Instructor Open Forum-Open to All Pilots

At this open forum we will discuss how to Prepare Pilots for the Unthinkable. Pilots react to emergency-situations the way they practice. Successful survivors have several things in common; these include knowledge, decision-making skills, and a cool demeanor. Attend this informative forum and find out which pilots survived the accident and what they did right. Join your flight instructor colleagues and make a difference in flight training safety. Click on the link below and register TODAY!

Directions: Open to ALL PILOTS. The Safety Seminar will be held at the College of Albemarle Aviation Campus next to the Currituck County Regional Airport (ONX). You may fly in but you must call the airport to make transportation arrangements to the college campus next door (a fence restricts passage to the campus from the airport). Call Russ Haddad or any airport personnel at 252-453-8032 to make transportation arrangements.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
