

The FAA Safety Team, GSO FSDO presents:

FAASTeam Flight Instructor Open Forum, Open to All Pilots

At this open forum, we will discuss Transitioning from "Legend" Instruments to Glass & Glass to "Legend" Instruments. The purpose of this Flight Instructor Open Forum is to stimulate discussion regarding ways to increase effectiveness of transition training from traditional "steam gauges" to glass panel displays. More than ever before, the aircraft in which we train the pilots of tomorrow are upgraded with new flight equipment. What are the best practices for teaching this transition? Don't miss this opportunity to discuss the methods, techniques, and challenges involved in guiding a pilot through this transition. IN ADDITION, we will review TSA flight training requirements for all CFIs. Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Click the link below and register TODAY. Refreshments provided by FlightGest.

Directions: Seminar will be held in General Aviation Terminal between Landamark and TacAir.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
