

FAASTeam presents:

The Preflight -- What Your Mechanic Wants You to Know

Pilots are familiar with the time-honored ritual of the preflight inspection of their aircraft. But do we really know what we're looking at, or looking for? Join District AMT of the Year and award-winning A&P/IA Billy Carter as he guides us through an informed preflight on some of the most popular trainer aircraft: a Cessna 172, a Piper Cherokee, and a Cessna 140 taildragger. Don't miss this informative event. Click the link below and register TODAY.
