

FAASTeam presents:

Monthly IMC Club Meeting - Mayday Above the Clouds

You are flying along, suddenly, things get very quiet in the engine compartment? What airspeed do you need to fly? Attempt restart? Find a place to land? Continue ahead or return to an airport behind you. You have only seconds to make the decision. Discuss the options with other IFR pilots.

IMC Club, through its nationwide chapters, provides organized "hangar flying" focused on building proficiency in instrument flying. Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. For IFR pilots, IFR students and anyone thinking about flying in the clouds. Bring iPad or other device to view instrument procedures. Click on the link below and register TODAY.

Directions: This seminar will be held in the Wings of Carolina hangar facility.

As you enter the airport, turn right on Ammons Farm Road.

With the fence on the left, look for Wings of Carolina banner on the left; turn into gate. The Wings of Carolina building is on your left just before you enter the South airplane ramp.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
