

Mayday 101 - Inflight Emergencies

Seminar Details 11:30 AM Classroom C- Presented by Bud Blower, professional Corporate Pilot and CFI. Every GA pilot fears an engine failure, but we seldom think about how best we should react if an alternator fails at night, the right main gear fails to extend, the throttle jams on a one-mile final, or an electrical system begins over charging. All these things and many others are not uncommon. Discover how best to handle these and other in-flight situations.

Directions: Seminars will be held in the NEW GTCC AV3 Campus across from HondaJet on Old Stage Coach Road. See Map connection. Look for seminar signs. Transportation for "Fly-Ins" can be arranged if you make 24 hour advance requests by calling Bob Sutherlin at 336-907-0487. Landmark ramp fee may be waived. Call for details.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
