

FAA Safety Team presents:

Cockpit Distractions Can Lead To Tragic Results

The event will address attentiveness on the flight deck and strict adherence to flying the aircraft during emergencies. Experiencing stress on the flight deck is one of several factors that can cause serious distractions which can draw us away from vital performance functions. Discussion on how we can recognize and eliminate cockpit distractions. Both General Aviation and Airliners have lost control and perished as a result of Cockpit Distractions. Don't let this happen to you.

Directions: The Aviation Technology building is first building on right at the end of Aviation Drive. The break room is the first room on left after entering the front door. Food will be served at 1800, meeting will start at approximately 1830, following the food service. Being able to provide food is always a treat as we have a variety of menus. Last month was big Nathan's Hot dogs with all the trimmings and potato salad and cole slaw. Come see what we serve up this month.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
