

FAA Safety Team presents:

CFI Forum - Open to All Pilots

At this FAASTeam CFI Forum we will explore Aeronautical Decision Making and how to assess risk and manage stress. To evaluate this process first hand, you will be asked to participate in an in-flight scenario during which two pilots traveling across the Appalachians encounter some aircraft system failures, night flight challenges, and critical navigation decisions, all based on true events. Lots of fun for everyone and a great way to see how you might cope with system failures, critical in-flight decisions, and proper pre-flight planning. Flight Instructors, Ground Instructors, Designated Pilot Examiners, Instructors in training, and all pilots are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

Directions: WINGS Seminar located in Air Wilmington FBO Terminal

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
