

FAA Safety Team and the Greensboro FSDO presents:

Monthly IMC Club Meeting - Longer Flight Than Expected

What happens when you don't get the routing you filed for? An altitude different than what you planned for? Winds are not what you expected?

This trip is not going well.

What are your options? What should you do?

How can you get to your destination safely?

IMC Club, through its nationwide chapters, provides organized "hangar flying" focused on building proficiency in instrument flying. Believing that safety and proficiency are developed through education and experience, monthly meetings use real world scenarios to engage our members and allow them to share and build their experience.

For IFR pilots, IFR students, and anyone thinking about flying in the clouds. Bring your iPad or other device to view instrument procedures. Click on the link below and register TODAY!

Directions: Seminar will be held in the Wings of Carolina hangar facility.

As you enter the airport, turn right on Ammons Farm Road.

With the fence on the left, look for Wings of Carolina banner on left, turn into gate, Wings of Carolina building is on your left just before you enter the South airplane ramp.

When flying in, please park in any of the ramp spots with tiedown ROPES.

Click here for a map.
