

FAA Safety Team and the Greensboro FSDO presents:

Monthly IMC Club Meeting - Non Radar Approach to Lebanon NH

You are flying an Angel Flight patient from Boston to Lebanon, NH (KLEB). You choose the appropriate approach based on the weather broadcast.

As you prepare to start the approach, ATC notifies you that the winds have shifted and assign a different approach than you were expecting. What do you do?

What are the options? What are the considerations? Oh, and "Radar service is terminated", so vectors-to-final are not one of the options.

The IMC Club, through its nationwide chapters, provides organized "hangar flying" focused on building proficiency in instrument flying. Believing that safety and proficiency are developed through education and experience, monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. This meeting is for IFR pilots, IFR students and anyone thinking about flying in the clouds. Bring your iPad or other device to view instrument procedures. Click on the link below and register TODAY!

Event Details

Tue, Aug 1, 2017 - 19:00 EDT
Wings of Carolina Flying Club
702 Rod Sullivan Road
Sanford, NC 27330

Contact: Jan W. Squillace
(919) 606-0233
jsquillace@gmail.com

Select #: EA3977267

Lead Representative Jan W. Squillace

Directions: Seminar will be held in the Wings of Carolina hangar facility.

Enter the airport grounds on Rod Sullivan Road, then turn right on Ammons Farm Road, keeping the chain link fence and the airport beacon on your left. Turn left at the gate with the Wings of Carolina yellow direction sign with red lettering.

Parking is in the lot in front of and next to the Wings of Carolina Flying Club. For Fly In aircraft, parking is available on the ramp in front of the Wings of Carolina Flying Club or the ramp area in front of the FBO.

When flying in, park in any of the spots with tiedown ROPES.
