

Greensboro FSDO FAASTEAM presents:

# Face to Face With Seymour Johnson Air Traffic Controllers

ATC personel are coming to do a face to face discussion on air traffic procedures and the proper way to communicate with ATC. This is your opportunity to ask the question you have always wanted to ask.

Goldsboro Wayne Aviation Association provides organized "hangar flying" focused on building instrument flying, and general knowledge and skills. The organization network promotes a safety culture through continued education and believes that safety and proficiency are developed through education and experience.

Monthly Meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, informative WINGS presentations are offered by aviation professionals. You do not have to be a rated instrument pilot to attend. Membership is encouraged. Click the link below and register TODAY!

**Directions:** The college is the first building on the right as you come down Aviation Drive

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
