

FAASTeam presents:

Approach Control and Tower Visit

We will be touring the functioning Rapcon and Tower at Seymour Johnson AFB. Due to the sensitivity of Seymour Johnson we need people to sign up early to allow us to get the clearance listing prior to the night of the visit.

Goldsboro Wayne Aviation Association provides organized "hangar flying" focused on building instrument flying, and general knowledge and skills. The organization network promotes a safety culture through continued education and believes that safety and proficiency are developed through education and experience.

Monthly Meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, informative WINGS presentations are offered by aviation professionals. You do not have to be a rated instrument pilot to attend. Membership is encouraged. Click the link below and register TODAY!

Directions: The college is the first building on the right as you come down Aviation Drive

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
